SUMMARY

Senior Product Designer with 8+ years of experience in digital product design, including 5+ years focused on complex B2B and B2B2C products. I lead end-to-end product design from discovery and information architecture through interaction design, prototyping, design systems, and developer handoff. Currently focused on AI-SaaS, translating complex model capabilities into clear, actionable workflows while building scalable design systems that help teams ship faster and more consistently. I work closely with product, engineering, data, and business teams to turn complex requirements into intuitive, scalable products.

EXPERIENCE

TwentyToo | USA (Remote) Dec 2023 – Present
Senior Product Designer

- Lead end-to-end product design for a B2B AI-SaaS platform, turning complex model capabilities into clear, usable workflows.
- Built the UI style guide and a reusable library of 96 components, making design-to-dev handoff faster and more consistent.
- Designed the onboarding and activation flows for the early-stage product, iterating on them with product and engineering as the platform grows.
- Work with product, engineering, and data teams to match what the models can do with what users actually need.

Reach Link | Kuwait (Remote) Jan 2023 – Dec 2025
Senior Product Designer (full-time, part-time from Dec 2023)

- Led design for a B2B2C influencer–brand marketplace and a B2C/B2B link-in-bio platform, from discovery to launch.
- Designed two-sided campaign creation flows for influencers and brands, used by 223 creators and 27 brands.
- Defined the design system guidelines used across both products to keep design and development consistent.

Talentera (bayt.com) | UAE Mar 2025 – Aug 2025
Product Designer (Project-based)

- Led the design of the Talentera events landing page, from content structure and layout to final UI.

Automated Systems Company | Kuwait Jan 2022 – Jan 2023
UI/UX Designer

- Redesigned operational workflows for Kuwait Airlines, cutting task completion time by 20%.
- Designed a full hospital management system end to end, including patient admission and appointment scheduling.

Medica Healthy | Egypt Apr 2021 – Dec 2021
Product Owner & UI/UX Designer

- Owned the product backlog and UI flows for a medical app, website, and web portal, from feature definition to release.

The Tailors Dev | Egypt 2019 – Mar 2021
UI/UX Designer

- Designed landing pages and admin dashboards, and delivered high-fidelity prototypes for client sign-off.

Spree Media | Egypt 2016 – 2018
UI Designer

- Designed user interfaces for web products, working closely with developers through to launch.

OMNAS | Egypt 2014 – 2016
Web Designer

- Designed and built client websites with HTML and CSS.

SKILLS

Product design: AI-SaaS UX · Design systems · Interaction design · Product discovery · Arabic (RTL) interfaces
AI workflows: Agentic design workflows (Claude + Figma MCP, custom AI skills) · Figma AI
Tools: Figma (components, variables, auto layout) · JIRA

EDUCATION & CERTIFICATIONS

B.A. in Al-Da'wah, Al-Azhar University (2007 – 2011)
Google UX Design Foundations · Designing Web & Mobile Interfaces (Howard Pinsky)
